

Care to Share

A referral to your friends and family to come see us at Belmar Smiles is the highest compliment we can receive. Therefore, the staff of Belmar Smiles would like to thank our existing patients for their trust in us with handling the dental needs of their loved ones.

We would like to introduce the **Care to Share Program**. During your next visit with us, you can pick up **Care to Share cards**, which are located at the front desk. You can also print the **Care to Share card** located on this page. Write your name on the front of the card. Then pass along the card to a friend, family member, business associate, acquaintance, or anyone you know who is looking for a caring, comfortable dental office. When that person presents to Belmar Smiles for their **first** dental appointment, **they will receive \$25 off any office visit**. In return, **you will also receive \$25 off any office visit** as our way of saying **“Thank You”** for your trust and confidence in our office.
